Leetcode: leetcode.com/u/Nithin_1909

SKILLS

PROGRAMMING

Languages:

- JavaScript, TypeScript, SQL, Python, Java

Frontend:

- React.js, Next.js, React Native, HTML, CSS, Tailwind CSS

Backend:

- Node.js, Express.js, REST APIs, WebSockets, Socket.IO

Databases:

- PostgreSQL, MySQL, MongoDB, Firebase

Data & Infrastructure:

- Prisma, Redis, Caching, Pub/Sub, Rate Limiting, Cron Jobs

Cloud & Deployment:

- Cloudflare Workers, Vercel

Testing & Tools:

- Jest, Autocannon, Postman, Splunk, VS Code, Git

Architecture:

- Authentication, API Design, System Design

Other:

- Turborepo, Linux, Windows

HIGHLIGHTS

- Built APIs handling **50,000+ requests/sec** with **<150ms latency**
- Improved database query efficiency by **30%** through schema and query optimization
- Reduced database load by **40%** using Redis caching and rate limiting

ACHIEVEMENTS

- Solved **200+** problems on LeetCode

EXPERIENCE

TATA CONSULTANCY SERVICES (TCS) | FULL STACK DEVELOPER -- METLIFE PROJECT

June 2025 - Present | Vizag, Andhra Pradesh

- Develop and maintain backend APIs for an enterprise insurance platform using Node.js, Express.js and TypeScript to implement business requirements.
- Implement frontend and backend features while resolving production issues across application services.
- Investigate application issues across frontend and backend services, identify root causes, and implement reliable fixes.
- Integrate REST APIs with databases and external services while maintaining data consistency, security and application performance.
- Support production deployments, application monitoring and issue investigation using Splunk and Adobe dashboards.
- Write unit tests and technical documentation while following enterprise coding, testing and version-control practices.
- Performed HTTP load and performance testing using Autocannon to benchmark API throughput, latency and server performance under concurrent requests.

FIVLOG TECHNOLOGIES | FULL STACK DEVELOPER

April 2024 - June 2025 | Hyderabad, Telangana

APP BACKEND | NODE.JS | EXPRESS.JS | TYPESCRIPT | PRISMA | REDIS | MYSQL

- Built RESTful APIs for user management and transaction workflows, handling **50,000+ requests/second** with consistent **<150ms latency**.
- Designed and optimized database schemas using Prisma ORM and SQL, improving query efficiency by **30%**.
- Implemented Redis-based caching and rate limiting, reducing database load by **40%** and improving application reliability.

SOCKET SERVER | NODE.JS | EXPRESS.JS | TYPESCRIPT | SOCKET.IO | REDIS | PRISMA | MYSQL

- Developed a real-time WebSocket server using Socket.IO, Node.js and TypeScript for multiplayer applications.
- Implemented room creation, player matchmaking and real-time game-state synchronization for multiplayer Ludo and Cricket.
- Optimized event handling and synchronization to maintain **<100ms latency** during real-time gameplay.

REAL ESTATE PLATFORM | NEXT.JS | NEXTAUTH | TYPESCRIPT | POSTGRES SQL | PRISMA | REDIS

- Implemented property listings, search filters and secure role-based authentication for admin, buyer and seller roles.
- Built bidding functionality, property image uploads and responsive interfaces for different device sizes.
- Designed RESTful APIs for frontend-backend communication and integrated NextAuth for authentication.
